### Description

In the shoutbox module, each post is followed by "x" and "e" links for delete and edit. Edit works ok, but the delete link doesn't. The edit link is a standard URL, but the delete link is a short URL. Clicking it produces a Tiki 404:

Error

Page not found  
shout\_remove=17

I guess the URL rewrite is wrong or something.

### Solution

Fixed by Anbumania in commit 55326. Thanks.

### Workaround

The post can be deleted at tiki-shoutbox.php (where the delete link is ...tiki-shoutbox.php?find=&offset=0&sort\_mode=timestamp\_desc&remove=2).
