Rating

★★★★★ (0) 

Related-to

-  Improve page load times by not loading unused CSS and Javascript (e.g., elfinder.js, code_mirror.js, etc.)

Description

When Javascript is minified, the ckeditor files are not loaded and (html) wysiwyg editing fails.

Workaround

Don't minify Javascript when using HTML wysiwyg

it happens when minify javascript (tiki_minify_javascript) is enabled, but minify late javascript (tiki_minify_late_js_files) is disabled

if both are enabled/disabled, CKEditor loads fine

Jonny Bradley 17 May 15 14:27 GMT-0000

Thanks Gezza, another one for Wolfgang i'm afraid (i did ask him not to go changing it ;)

Philippe Cloutier 08 Jan 18 17:10 GMT-0000

I cannot reproduce on trunk r65130. Can you reproduce with a current version?
