Description

At themes.tiki.org and at my localhost branch 14, wiki syntax isn't being parsed, but is being displayed as text instead.

At the show instance, the login is admin/12345 but the bug can be seen without logging in.

Solution

r56298 hopefully?

I'm guessing this issue has been solved and am closing the report. Please re-open if any issues.

Importance

10 high

Easy to solve?
