Description

14.x: export sheet produced WSOD (blank page). this used to work. (9.x, and 12.x)

error:

Fatal error: Call to a member function sheet_history() on a non-object in
/var/www/xavi-9794-5723/tiki-export_sheet.php on line 48

And reproduced here:

https://doc.tiki.org/tiki-export_sheet.php?sheetId=2
(as registered user)

We need export this sheet from doc.t.o because it's the documentation of the feature, and we need a way to easily clone it in a trunk install, or tiki 12, to test regressions, etc.

Issue fixed in r57088 (trunk) and r57089 (14.x).

However, when exporting in CSV format (either pure CSV, or Excel-CSV format), content is stored as "Array, Array, Array..." (as many times as values)

Reproduced here:

http://xavi-9794-5723.show.tikiwiki.org/tiki-export_sheet.php?sheetId=1
u: admin
p: 12345

Solution

Since r49288, each cell on the grid hold his value inside a key name "value", not on the cell it self.
Updated the export functions to take that into consideration.
(Fixed in r57513, backported to 14.x and trunk)

Fix confirmed, thanks rjsmelo!
