### Description

To reproduce:

1. Enable the JQuery upload feature
2. Edit a page and upload an image using the icon "Choose or upload images"
3. Save the page
4. Then you decide to change that picture: Click the img plugin helper icon below the image
5. Click the icon next to the fileId field to upload new image insted of the current one
6. Upload the image then click it - it should replace the ID 1 with ID 2 but instead it inserts the whole wiki syntax and messes up the img when saved

### Solution

Hopefully r57636?  
Backported to 14.x

### Importance

How can I svn up the show instance? I thought there was a button for it but maybe I just dreamed about it :-p

Jonny Bradley 01 Mar 16 12:31 GMT-0000

Sadly the versions to show the button are hard-coded into the field tpl, which i updated and backported in r57712

Meanwhile, the button's only hidden for unsupported branches so you can always get it to appear using a DOM inspector 🙄

p.s. Did this one and the fix looks good to me 😊

luciash d' being ☐ 03 Mar 16 16:47 GMT-0000

Ah, great, I knew I saw it somewhere! ;) Thanks! Closing the issue. (and destroyed the nomore needed show instance)
