Description

The first three stars appear half filled after rating five stars?

Is that expected behavior or am I confused?

Confirmed, when rating field option are -2,-1,0,1,2 it draws half-stars for 0 rating.

Thanks Constantin, but it does not seem to work as expected still. Only after page reload, it seems correct, but during the voting (ajax stuff) it is all behaving very weirdly 😊

If you are not going to tackle it more, it should be probably rollbacked I think...

I have set up the show instance.

Constantin B 26 Mar 16 22:40 GMT-0000

I fixed AJAX stuff with rating and also another bug where you can't unvote "0" rating.. Somehow I can't update show instance, please check from your side

I have updated the show instance. It looks fixed now! Thanks and congratulations! 😊Closing the

bug report.
