Thanks Constantin, but it does not seem to work as expected still. Only after page reload, it seems correct, but during the voting (ajax stuff) it is all behaving very weirdly 😊

If you are not going to tackle it more, it should be probably rollbacked I think...

luciash d' being 25 Mar 16 14:49 GMT-0000

I have set up the show instance.

Constantin B 26 Mar 16 22:40 GMT-0000

I fixed AJAX stuff with rating and also another bug where you can't unvote "0" rating.. Somehow I can't update show instance, please check from your side
