Description

This was working in previous versions of Tiki (maybe 9.x?). I couldn't check when the regression was introduced.

popup box to select visible calendars shown underneath events details (using fullcalendar)

In 15.x: Using theme "Default bootstrap", but also reproduced with fivealive-lite, etc.

In 12.x: using default theme style (fivealive)
See it reproduced in 15.x here:
u: admin
p: 12345

To see it reproduced in 12.x, visit:
u: admin
p: 12345

Solution
Fixed in r58326 to r58328
Please review

Fix confirmed, thanks luci and marclaporte
