Description

That used to work nicely in the past.

Plugin TrackerList & TrackerFilter have non-linked item fields display links to current page
even if param showlinks="n" (no change)

See it reproduced here:

http://xavi-9794-5935.show.tikiwiki.org/tiki-index.php?page=Tracker_as_Calendar_12

Comments

Mike Finko 27 May 16 14:00 GMT-0000

an additional piece of information:

- while the links do show, only fields that have the parameter 'Title' checked actually click through to the item
- clicking on a fields that do not have the parameter 'Title' checked will result only in a page refresh
