Description
I've run a script on all profiles from all branches (https://github.com/xavidp/TikiProfilesTester) and I see that all

profiles since 15.x throw this error message (which might be related to the fact that unified search index may be currently enabled by default)?

```
PHP Fatal error:  Uncaught Search_MySql_LimitReachedException: Could not perform index
modification: Incorrect datetime value: '0000-00-00 00:00:00' for column 'creation_date' at
row 1 in /var/www/html/15.x/lib/core/Search/MySql/QueryBuffer.php:55
Stack trace:
#0 /var/www/html/15.x/lib/core/Search/MySql/QueryBuffer.php(37):
Search_MySql_QueryBuffer->realFlush()
#1 /var/www/html/15.x/lib/core/Search/MySql/Table.php(195): Search_MySql_QueryBuffer->flush()
#2 /var/www/html/15.x/lib/core/Search/MySql/Table.php(28): Search_MySql_Table->flush()
#3 [internal function]: Search_MySql_Table->__destruct()
#4 {main}
  thrown in /var/www/html/15.x/lib/core/Search/MySql/QueryBuffer.php on line 55
```

Using php 5.6, and mysql (server) 5.7.12 (mysql client: libmysql - mysqlnd 5.0.11-dev - 20120503).

Profiles are applied through the command line with "php console.php p:a ProfileName"

Solution
r58695 seems to work for me, but only on my local so far

___

fixed for me too. Closing the bug report. Thanks jonnyb!

Comments

Jonny Bradley 24 May 16 17:44 GMT-0000

Are you sure this is with mysql 5.6, i thought it was a 5.7 thing...

Jonny Bradley 24 May 16 18:14 GMT-0000

I managed to reproduce it with mysql 5.6 by setting the sql_mode to TRADITIONAL with

```
SET GLOBAL sql_mode = 'NO_ENGINE_SUBSTITUTION,TRADITIONAL';
```

but it doesn't look easy to fix... more soon hopefully 😉

Xavier de Pedro 24 May 16 20:45 GMT-0000

yes, it was php 5.6 and mysql (server) 5.7.12, sorry. (phpinfo reported mysql client libmysql - mysqlnd 5.0.11-dev - 20120503), but the package frmo the package manager as well as through phpmyadmin say that it's mysql (server) 5.7.
