Subject

Namespace duplicated when creating page that doesn't exist by wiki-link

Category

- Conflict of two features (each works well independently)

Feature

Wiki (page view, edit, history, rename, etc)

Resolution status

New

Submitted by

Rating

★★☆☆ (0) ?

Description

When you have the feature "default namespace", and also the feature "Force all non-namespace page links to the same namespace", when you click a wiki-link that points to a non-existent page, the create page will have a duplicated namespace.

Seems to work, if I disable "Force all non-namespace page links to the same namespace"  
Will make further testings
