Description
    Found a bug in the Button plugin, when using the colorbox feature. It just redirect to the href link, instead of opening the page in a colorbox

    Can be seen in doc.tiki.org in https://doc.tiki.org/PluginButton , and also in https://doc.tiki.org/ColorBox

    Thanks

Solution
    Appears to be fixed at some point. On the links mentioned in the description it works again.

Maybe part of this was fixed in r58743 - is it about the same thing?

Fernando Torres 01 Jun 16 23:09 GMT-0000

Hi John,

Im using 15.0 (r58762) and it is not working atm. It continues to go to the href link, instead of opening a colorbox window.

Thanks

Fernando Torres 02 Jun 16 07:40 GMT-0000

Also, I guess it`s not the same thing, as this problem is related to the use of colorbox in buttons, not in images that was fixed in that rev -> FIX Image descriptions were missing. New fancy tips can't be used here (feature conflict)
