### Description

when listing a gallery via `tiki-list_file_gallery.php?page=fgal&galleryId=<GALLERYID>` (with mode set to Browse), the filter section is always opened, even without filters being set, eating a lot of space.

probably comes from the other submitted but where uselessly empty filter parameters are added to the url, like

`find=&type=&types=&topic=&lang=&langOrphan=&exact_match=&categId=&find_from_Month=&find_from_Day=&find_from_Year=&find_to_Month=&find_to_Day=&find_to_Year=`
