Description

When I click on the icon to "Choose or upload images" here in <https://dev.tiki.org/Make+a+wish> the page refreshes and all the content I typed (and selections to tracker fields) is gone.

Reproduced with Chromium 50 or Firefox 46 in Linux 64 bit, in case it matters.

Solution

Oops, sorry, it was worse than just on tracker forms, all wiki editor upload images buttons were broken, my fault in [r59048](#) :O

Hopefully fixed in trunk in [r59064](#) and backported to 15.x in [r59065](#) (probably, coming next)

Fixed indeed, thanks!
