

Solution

I guess this should help:

```
a.external {  
  word-wrap: break-word;  
}
```

Fixed in [66225](#)

Wraps nicely to 4 lines in my Firefox. Fixed?

Bernard Sfez / Tiki Specialist 30 Apr 18 09:29 GMT-0000

Hi Lu,

It is not fixed on Chrome and Safari on my Mac and may be not on others too.

Please don't close bug report too quickly and without complete test.

Lucias d' being  30 Apr 18 11:05

Too quickly? Sorry, it was created Saturday 30 July, 2016
so I thought it was fixed since then ;)

Check above,

You asked today at 12:20IDT if it was fixed.
It was already closed the same day at 12:29
IDT and while answering you I had to re-open
it.

So yes, 9 minutes is pretty quick to expect a
reply on a item here. 😊

Lucias d' being  30 Apr 18 11:06 GMT-0000

When it is reported as regression. Do you remember when it was wrapping properly in all
browsers?

Bernard Sfez / Tiki Specialist 30 Apr 18 12:17
GMT-0000

No, I can't tell.

My ticket here is a compilation of several other reports (list, customer,
items, etc).

Seems you did a fix, it will be great to commit it (if it is good) so I can
close this ticket.
