### Description

bad contrast of text vs bg in alternate row with trackerlist (or fancytable?) inside a remarksbox plugin with theme cosmo (at least)

After upgrade from tiki12 to tiki15, and selecting theme cosmo.

I had to convert calls of plugin remarksbox into plugin box.

For the record, reproduced here: <https://sustainability.seeds4c.org/Shared+Forms+to+include>  
(with plugin remarksbox, currently replaced by plugin box, since it's a production site)
