- ⊗ PluginConvene: tell user chosen date and time once it is chosen

Description
    Convene plugin missplaces the counts in columns after the winning choice. See it reproduced in the screenshot below:

missing calendar icon in the box next to the winning choice

In
https://tiki.org/Roundtable+Meeting+2016+09

After the count with the more votes (7, at the time of this writing), and the icon with the checkbox-like icon to indicate that this was the winning choice (Thu 15 Sep 2016 15:00 CEST), there is a button box in orange in the screenshot that should show a calendar icon, and that button allows to send that date to the pre-defined tiki calendar.
https://tiki.org/tiki-calendar_edit_item.php?todate=1473944400&calendarId=7

But no calendar icon is shown, and the count of votes for the next date (column in the table) is shown there instead ("3" instead of the calendar icon), and the next counts are also one column before where they should be.

Solution
    fixed in 15.x in r60275 (backported from 16.x). thanks jonnyb
