Related-to

- InterTiki doesn't update Last Login time
- Last Login date not retrieved on user info mouseover popup
- Last login wrongly indicated as never logged in
- Last Login date not retrieved on user info mouseover popup

Description

Any idea what could cause "Never logged in" message on all hovered user names pop-ups on tiki.org and doc.tiki.org while it works just fine on dev.tiki.org and shows correctly Last login ...bla bla... for them?

Mystery to me :-o

Some difference in the site setup?

luci

Solution

Preference feature community mouseover lastlogin must be enabled (Preference name: feature_community_mouseover_lastlogin)

Priority

25

I have tried to debug this several times in the past but failed (intertiki debugging is always tricky) - well spotted it's ok here on dev, but not on tiki.org or doc, must be a clue there!

Thanks for updating the item with related bugs and for the comment Jonny! I will try to compare the site preferences and maybe get some clue then...
