Description

can't upload an image to a file gallery in doc.t.o with elfinder (default UI) since 16.x

To reproduce:

1. I'm logged in as user "xavi" (with no admin perms, I mean)
2. I edit one page, e.g. Tiki17
3. place the cursor somewhere in the text.
4. Click at the button from the toolbar to "Choose or upload images"
5. The elFinder UI popup is shown with no contents, and I?m not able to click anywhere (browser non.-responsive), while I can't only get access to use the browser again when the wiki pedit page is automatically refreshed with the elFinder automatically disappearing.
6. Reproduced also after clearing my Browser cache, and Tiki caches, with Chromium and Firefox.

Solution
