Even when your file is php?

Xavier de Pedro 19 Jan 17 14:27 GMT-0000

yes

gezza 26 Jan 17 19:33 GMT-0000

xavi, can you attach your custom.php? we will check it

about jonnys comment on not to use php: probably would be safer not to allow uploading php files. how about a simple csv? while we are working on tighter transifex integration we could rewrite this too..

sure, attached, https://dev.tiki.org/tiki-download_item_attachment.php?attId=422

Thanks

Wasn't this rewritten to not use php files? (if not it should be imho ;))

in trunk and tiki17 php upload option is removed and changed to json, please test
