Description

Note: in the editor the highlighter for "java" is called "jade", but neither "java" nor "jade" work in the example:

```
class Foobar { static { System.out.println("foobar.<cinit>"); } public final static String
FOO_COMPILE_ZEIT_KONSTANTE = "foo"; public final static String
FOO_LAUFZEIT_KONSTANTE = new String("foo"); public final static int
BAR_COMPILE_ZEIT_KONSTANTE = 42; public final static int BAR_LAUFZEIT_KONSTANTE =
new Integer(42).intValue(); } public class KonstantenTest { public static void main(String... _)
throws Exception { System.out.println("Foobar.FOO_COMPILE_ZEIT_KONSTANTE = '" +
Foobar.FOO_COMPILE_ZEIT_KONSTANTE);
System.out.println("Foobar.BAR_COMPILE_ZEIT_KONSTANTE = '" +
Foobar.BAR_COMPILE_ZEIT_KONSTANTE);
System.out.println("Foobar.FOO_LAUFZEIT_KONSTANTE = '" +
Foobar.FOO_LAUFZEIT_KONSTANTE);
System.out.println("Foobar.BAR_LAUFZEIT_KONSTANTE = '" +
Foobar.BAR_LAUFZEIT_KONSTANTE); } }
```

Workaround

I edited the homepage of the instance as example.
