Description

At the Cartograph set up page under the "Instructions" heading. Item number 5 has an invalid URL directing the user to a website to obtain mapping icons.

5. Upload in the File Gallery (in the "Icons" gallery folder) some icons that can be used as markers on the maps. A great source is: <https://mapicons.nicolasmollet.com/category/markers/>. You can upload a zipped file and ask Tiki to unzip the files.

The website url <https://mapicons.nicolasmollet.com/category/markers/> appears to be either invalid or non-existent.

The following url is the url I believe we are trying to reach <https://mapicons.mapsmarker.com/>

Solution

replaced url with <https://mapicons.mapsmarker.com/>

Hi John!

Profiles run from wiki pages. So you can easily fix:

Awesome! I've never fixed anything yet, this will be my first fix! Thanks Marc!

Brilliant, thanks John, well done on your first fix in Tiki, hope it's not the last! 😊

I found those: <http://icon-park.com/?s=pin>

Jonny Bradley 27 Feb 17 10:58 GMT-0000

Original ones seem to now be here <https://code.google.com/archive/p/google-maps-icons/downloads> too

John Morris 27 Feb 17 12:16 GMT-0000

Thanks Bernard and Jonny, which url should we use?

luciash d' being 27 Feb 17 12:23 GMT-0000

Please use <https://mapicons.mapsmarker.com/> so it stays consistent with what we had in Tiki 12 Cartograf profile.

Jonny Bradley 27 Feb 17 13:36 GMT-0000

Well tracked down Luci, +1 thanks! (the google code one i found didn't have the zip packages and will be gone soon anyway)

Bernard Sfez / Tiki Specialist 28 Feb 17 06:34 GMT-0000

Please improve Doc and Profile, thanks ! ;)
