Hi Andres

17.x has this already i think, but you can code? If so welcome! 🍷

Maybe we can find the commit(s) and you could backport it/them?

Let's meet on [IRC](#) sometime to get you set up (but not now, i need food ;)

On a site, I noticed field picking was there, but not for pop-up .

Also, sometimes, order is important. I don't think current interface lets us re-order
