- 🟡 Wiki page removal fails quietly by default
- 🟡 Wiki page removal fails quietly by default

### Description

1. Create a Wiki Page with content "First content". Save it.
2. Edit page. Append "Second content" to the content. Save it.
3. Remove --> remove only last version.
4. Open page. "Second content" is still there. It should not!

I don't know yet if it's a regression from 17 to 18. I found it using trunk 18.0 and I just could't find "18.0" on the Version field above. Anyways, I assume it's a regression as this feature must have worked some day. Luis Henrique reproduced this error in his environment.
