Description

Plugin List fails to find a match for the category Profiles Wizard (292) in dev.t.o

This item

<https://dev.tiki.org/item6374> - "Can't apply a Profile from the Profiles Wizard! (only through profiles control panel): ticket missing?"

is categorized against category 292: "Wizards - Profiles Wizard"

This wiki page has a plugin list call to show items in this category (with equivalent syntax that it's working with no problems - apparently - in other pages in dev.t.o):

<https://dev.tiki.org/Profiles-Wizard>

and it fails to list that tracker item (and any others tagged against that category, if any).

Workaround

Maybe it just got fixed by itself, or needed reindexing or something? Seem fine now

Yep, automagically fixed. Thanks Jonny (here) and Bernard (email) for reporting.
