Description

See here:

<https://dev.tiki.org/Newsletter#Roadmap>

Per user/group newsletter administration based on category permission or on object permission.

- It should (shall) be possible for specified groups to provide an own group-newsletter created by a superuser, which then could (shall) be administrated by one or more specified group members / group admins whilst the newsletter admin of one group cannot (shall not) administrate or alter the newsletter(s) of another group.
- This could be accomplished by adding to the code the opportunity to categorise newsletters and to add certain admin-permissions like tiki_p_batch_subscribe_email, tiki_p_send_newsletters, tiki_p_subscribe_email, tiki_p_subscribe_newsletters, tiki_p_view_newsletter, tiki_p_list_newsletters to the category permissions (not tiki_p_admin_newsletters)
- There should be a distinction between tiki_p_admin_newsletters which includes the permission to create a new newsletter and the now not (yet) existing tiki_p_admin_newsletter which would limit admin permissions to the specific newsletter.
