Description

In Tiki 12 at tracker fields there was a field type D where you could select an option or add a value beyond the options.
In Tiki 15.1 I used the tracker field type "Drop Down with Other field" and named the field "choices"
My options were: Wahl1,Wahl2,Wahl3,other
When I want to enter values in the field "choices" I can just select from the above. But I can't type in "Wahl4".
Perhaps I use the field wrongly?
Thanks for your help.

Solution

This is solved for Tiki 18 via revisions 64241 and 64426.

Workaround

Add an "other" option, where "other" is how Tiki displays the word "other" in your language

Tested and it works for me:

Ahhh, I changed the standard language from German to English and it works.
I think, now it's easy to find the error.
Thanks for your help!
I'd like to pay 50€ for tiki. But I can't give a donation from my company. Can you also send me an invoice?

Hi Hans, Tiki project does not send invoices for donations but you can donate to it on https://tiki.org/Donation

Thanks,
so the field will work in the next version also in German?
