Description
        On the Tiki Webmail (tiki-webmail.php) there is a selector to choose what mailbox folder to display:
        Inbox
        Draft
        Queue
        Sent
        Trash

        Seems only Inbox shows something.
        Sent and Trash are not working (email sent or trashed are not displayed).

        About the others, I'm not sure what should be done;

- Do a user need to see the queue ?
- Tiki Webmail can't create/save draft yet

        (asking in the dev list)
