Fixed in trunk: 67463

luciash d' being 󠀀 14 Sep 18 22:16 GMT-0000

Fixed. Please retest...

Luci, I applied the fix to my own instance and received this error message
Class 'Tiki\Lib\Image\Image' not found

And all images on website would not display.

luciash d' being 󠀀 16 Sep 18 15:30 GMT-0000

Hmm, weird, I have just changed the `%22` to

"

I believe... Did you try svn up 18.x (I have backported it there).

John Morris 18 Sep 18 03:33 GMT-0000

I saw the changes, and I downloaded the file and uploaded to my server to replace the
wikiplugin_img.php
And it did not seem to work, however I SVN'd this show instance and it looks like it works now.

Luci, can you help me here, I have tried SVN up patches and I am having bad luck doing so, this is

what I use svn update r67463 but no luck. This is the message I get
"svn update -r67463
Skipped '.'

I have tried other variations too but no luck. Appreciate any help you can give.

I believe it would be 67465 on the 18.x branch...

John Morris 15 Sep 18 13:19 GMT-0000

Also, I would have tried to svn up the show instance but the show instance is down.

John Morris 18 Sep 18 03:46 GMT-0000

Luci, thanks for your work on this, I went ahead and SVN 18.x and it works just fine now. No more 22%, very nice thanks! Question, when I SVN'd up 18.x, I ended up with 18.3, is that ok?

luciash d' being ⬚ 23 Sep 18 02:33 GMT-0000

You're welcome. Yes, 18.3 will be the next released on 18.x branch in the future, so that is OK.

Excellent
