I have tried to edit (update) the following item many times and it does not save:

<https://dev.tiki.org/item6780-Quotes-in-image-caption-show-as-22text-22>

[luciash d' being](#)  16 Sep 18 17:11 GMT-0000

I wonder has it to do something about the fact that the title of that issue contains %22?

Apparently it is very intermittent and happens only on some items...

Does not look like it. First creation and first edit works usually but sub-sequent edit do not save anymore. I tried on more items.

I confirm it doesn't work.

I can't edit this ticket and also not :
