Description
There is broken link from that icon leading to http://doc.tiki.org/Using%20Wiki%20Pages%23List_Pages which says "Error: Page not found".

Instead it should link to http://doc.tiki.org/Using%20Wiki%20Pages#Listing_Pages

https://sourceforge.net/p/tikiwiki/code/68489/

there were a couple more broken links..
but the real issue was that the hashtag in those links was encode to '%23' which
would have brung up an error even with the correct url. so i needed to convert it back
to '#'.
