Description
When someone changes the Related-to field here I receive email notification like this:

Item Modification Tracker: Bugs & Wish list Item: 6887 WSOD (again) on tiki.org forum thread
link View the tracker item at:
https://dev.tiki.org/item6887-WSOD-again-on-tiki-org-forum-thread-link Author: luciash d' being
Date: 01 Nov 18 11:51 CET Status: Open ---------- ----------

I added the related tracker item to the Related-to field on
https://dev.tiki.org/item6887-WSOD-again-on-tiki-org-forum-thread-link
As you can see it does not report the change on that field at all.

Importance
