### Rating

★★★★★ (0) ?

### Description

The directions for (as I remember) version 14+ for setting up SMTP don't work on Version 19. Specifically, there is no mail menu item.

Are you in "advanced" mode ?

In the admin menus, on the top left, there is a "Basic" toggle which can be changed to "Advanced". Then you can set this as your default config using the little filter icon which show up besides the "Advanced" button.
