Permissions for deactivated features should be hidden or grey-out

Marc Laporte 07 Apr 06 17:59 GMT-0000

tiki-assignpermission.php should default to all listing and not to tiki (currently, it is not intuitive to find permission list for other features) -> Done in BRANCH-1-9 and will be released in Tiki 1.9.3

Oliver Hertel 27 Apr 06 19:18 GMT-0000

The 'levels' are marked as 'advanced feature' now and hidded except for a message on how to expand it. This 'advanced feature' concept is in development and will be used elsewhere too, to hide complicated/not much used features.
