Description

The first time I came here to "make a wish", I couldn't find the way to register. The login box on the top only allows login, not registration.

Solution

Tried to improve that using a custom module.

Seems my custom module was replaced by the standard one again, so we are back to the previous situation. 😞

Maybe worth adding a note to the Websites Gardener Blog? 😊

Ahem, what note?

About your custom module? Maybe another *gardener* didn't know about (or understand) it?

Ah, yep, I probably forgot to put it there. Sorry about that. Should I still put it there? The module still exists but is unassigned now.

BTW: Saving this form yelled "user godbout not found".
