Description
     when you want to see the history of a sheet, the different versions of the sheet appear and then
     disappear at the same time. This effect occurs when you reload the page.
     I was using Chrome Version 75.0 and Opera Version:60.0

Importance
     5

Priority
     25

https://sourceforge.net/p/tikiwiki/code/70347/
not a 100% fix but it should:
1) no longer hide the sheets
2) no longer generate javascript errors

PS this bug exist since at least 18x
