Description

After applying a profile in 20.x, plenty of ugly error message notices are shown, regarding inability to create plenty of cache files:

Things like:

“

Error

Cache file temp/cache/module8756ab3c25fd45a0a55957e6d7bb1f16 is not writable

Very bad image for any one testing a brand new tiki site, and clicking for instance at any of the featured profiles.
