- ● Browse Gallery option does not insert files or images syntax into wiki page

Description

The upload file plugin ( on the toolbar) is broken.

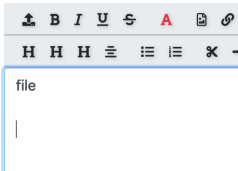

When you use it it return the value of the "insertion_syntax" instead of the plugin that should be inserted in the wiki page. It can be tested on this ticket using the toolbar upload file.

I traced the code and it lead to lib/jquery_tiki/files.js, function processFgalSyntax that return the actual wrong syntax ("file").

It should instead return the syntax like the one that can be found at : lib/filegals/filegallib.php line 2140:

```
$syntax = '{file type="gallery" fileId="%fileId%" showicon="y"}';
```

(inserted manually due to another bug)

Solution

Hopefully ba6420ff ?

Tested and it work fine now.
Thanks for the fix Jonny.
