Description

On our Tiki Roundtable Meeting page there is a lot of redundancy task to manage the information.

One of them, at <https://tiki.org/Roundtable-Meeting-2020-05> we have the convene plugin (people that voted to decide the time of a meeting based on their availability) and we have a list of confirmed people.

While it is not 100% the same, it would be nice and look alike most of the similar tools to have the "confirmed" list directly populated from the convene list.

This would be optional (a plugin parameter) to have it displayed.

We could extend it (like most calendar tools, including Tiki calendar) to have 3 options: Coming, Interested, Not coming. (each one being displayable or not).
