### Description

When you click on "Payments" and then click on a purchase, there is a listing of goods purchased, but the links point wrong. E.g. after purchasing item number 4, the link points to tiki-index.php?page=cart+product&itemId=4 which does not open product item number 4 when you click on the link. Instead you land on product number 1, looks like this is a default?

## Comments

hman 15 Jun 20 20:33 GMT-0000

Looks like a simple coding error. Product #4 purchased points to

```
tiki-index.php?page=cart+product&itemId=4
```

whereas the correct link would be

```
tiki-index.php?page=cart+product&itemId=4
```

, so somehow the ampersand that separates the link part of the URI and the first variable from subsequent data parts got spelled out HTML "&" instead of simply using the character '&'. This should be SUPER easy to fix...

hman 15 Jun 20 20:41 GMT-0000

Cannot change "Easy to solve" to 10, I always get the error message "not found" when I want to save.

hman 01 Jul 20 15:16 GMT-0000

Now it was possible, so changed it to "Easy to fix"
