Layout clash in history function of Wiki page | Tiki Wiki CMS Groupware :: Development

Layout clash in history function of Wiki page

Status

● Open

Subject

Layout clash in history function of Wiki page

Version

18.x

Category

- Conflict of two features (each works well independently)
- Less than 30-minutes fix
- Easy for Newbie Dev

Feature

Wiki (page view, edit, history, rename, etc)

Resolution status

New

Rating

★★★★★ (0) ?

Description

If the translation feature i18n is active, in Wiki page history the GUI clashes with other features. Look at the screenshot attached. The small "A" that is visible next to the flag icon of i18n is actually the drop down menu containing all languages (starting with Albanian, hence the "A").
