Description

When I filed my last wish (about sorting) along with the thank-you-page I got a cloud connection error from dev.tiki.org:

Unable to connect to fd8f1a8b53674d9c8d46caffb484411d.eu-central-1.aws.cloud.es.io:9243 . Error #0: stream_socket_client(): unable to connect to fd8f1a8b53674d9c8d46caffb484411d.eu-central-1.aws.cloud.es.io:9243 (Connection refused)
and with it the note, that the index would need rebuilding.

Thanks for looking after the server...

Solution

Thanks to **@Roberto Kirschbaum** hopefully fixed now - this wasn't really a bug in tiki but some sort of network error we think.

Thanks

Hopefully fixed now, mainly adding content to double check!

Confirmed, posting a new bug report no longer shows cloud error... Thank you.
