### Description

This is demonstrated here:

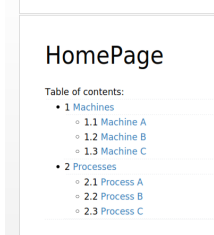

<http://user-11990-7501.show2.tikiwiki.org>

With a wiki page this code

```
Table of contents: {toc structId="1" shownum="1"}
```

will produce this with a PDF generated:

The screenshot shows a PDF page titled 'HomePage'. Below the title, there is a 'Table of contents:' section. It lists two main items: '1 Machines' and '2 Processes'. Under '1 Machines', there are three sub-items: '1.1 Machine A', '1.2 Machine B', and '1.3 Machine C'. Under '2 Processes', there are three sub-items: '2.1 Process A', '2.2 Process B', and '2.3 Process C'. Each sub-item is preceded by a small arrow icon.

It does not matter if the wiki page is part of the structure or not.

On screen there are only numbers shown:

Manual

Organisation Z  
Entry Y  
Location X  
John Dow (Manager)

Standard Operating Procedure  
Manual

Table of contents:

- 1 Machines
  - 1.1 Machine A
  - 1.2 Machine B
  - 1.3 Machine C
- 2 Processes
  - 2.1 Process A
  - 2.2 Process B
  - 2.3 Process C

## Solution

Expected PDF output is a TOC that has no bullet since the TOC in the wiki page also doesn't have bullets

Table of contents:

- 1 Resources
  - 1.1 Personnel
  - 1.2 Facilities
  - 1.3 Equipment
    - 1.3.1 Laboratory Refrigerator
    - 1.3.2 Distiller

I would put in the time to solve this bug. But I would need somebody to guide me where to start. Any senior dev to support me very much appreciated.

luciash d' being 24 Mar 21 11:31 GMT-0000

Hi, this should be only matter of some missing CSS (SCSS) code to show or hide the bullets. What

should be the expected result?

David Bensel 25 Mar 21 06:25 GMT-0000

The expected output (to me) would be a TOC where there are numbers without the bullets, just as seen on the screen.

David Bensel 25 Mar 21 06:29 GMT-0000

added expected output to description
