Description

Rewards cannot be created. In order to translate this feature, I created a goal, eligible for all registered, activated it. Easy goal, condition page creation ≥ 5 . Then I wanted to set a reward, but I can't. In the list it (correctly) says "No rewards yet". But clicking on the button "Add Rewards" only yields a popover that says "No available rewards". Then I thought, maybe someone must meet one of the conditions first, and lowered the condition to page creation ≥ 0 . Still "No available rewards"...
