Description
When *chosen* is active, the *Reset* button does not reset dropdowns any more.

Simple input fields work fine (i.e. they are voided) but dropdowns just keep their values.

Without *chosen*, all works as expected.

Let's spare time and resources and recycle a past existing show2 instance 🥲

We probably need to do `$("form").trigger("chosen:updated")` on the reset event, if there is such a thing ;)
Does that help?

Jean-Marc Libs 17 Sep 20 14:26 GMT-0000

Makes sense but I don't know where to include it either and other pressing stuff keeps taking precedence
Let's keep open for now.
