Description

Any idea why this page: <https://info.tiki.org/Add-Consultant>
has a wrong browser title: "File Upload | Tiki Wiki CMS Groupware :: Community"
???

It should be: "Add Consultant | Tiki Wiki CMS Groupware :: Community"

Odd indeed, coincidentally i was playing with <https://tiki.org/test> (experimenting with TogetherJS) and noticed the same, must be the tracker plugin, i'd have a look for recent MR's in the history of `wikiplugin_tracker.php` and/or Tracker Field `Files.php`?
