**Rating**

**Description**
When I create a tabular from a tracker which has a field of type *group selector*, I can't use it because this type of field does not seem to be implemented:

```
Field mode not found: any mode for selectionrolesGroupe
```

*selectionrolesGroupe* being the permname of the field of type *group selector*.

**Solution**
Issue fixed in [https://gitlab.com/tikiwiki/tiki/-/merge_requests/646](https://gitlab.com/tikiwiki/tiki/-/merge_requests/646)

**Importance**
8

**Easy to solve?**
Priority 40
