Description

WAS: Alias Donation not working on t.o
On Google I was looking for "Tiki Wiki Donation".
I get a result and this is the link:

<https://tiki.org/tiki-index.php?page=Donation&structure=Donation>

But it goes to a non existing page that need to be created.

If I go at <https://tiki.org/Contribute-to-Tiki> I see this page as a "Donation" alias.
Something is not working as expected. (removing &structure=Donation doesn't help).

Update: 2021-05-19

Now on Google when you look for "Tiki Wiki Donation", the output is:

- <https://tiki.org/sheet15> : a public sheet that display 2011 donations (anonymous can see !)
- <https://tikiwiki.org/sheet15?parse=edit> : an error page (Permission denied: feature_sheet)

Not really an improvement of the situation... ☐

Note: Googling "Tiki Donation" output is:

- <https://tiki.org/Contribute-to-Tiki>
- <https://tiki.org/sheet15> : a public sheet that display 2011 donations (anonymous can see !)
- <https://tikiwiki.org/sheet15?parse=edit> : an error page (Permission denied: feature_sheet)

There too it is not really optimal

Solution

Not sure how or why but all these links now work for me, both logged in and as anonymous:

- <https://tiki.org/tiki-index.php?page=Donation&structure=Donation>
- <https://tiki.org/Donate>
- <https://tiki.org/Donation>
- <https://tiki.org/Donations>

All redirect to <https://tiki.org/Contribute-to-Tiki> for meso it looks like it's working to me.

I also made the two financial looking spreadsheets admins only

Just for information, I changed the link in the site footer to point directly to "Contribute to Tiki" so the alias isn't used. But the problem with the alias should be figured out. By the way, I tested the updated link and made a small donation to test the full process, and it worked as expected.

Not sure 100% the underlying issue was fixed (Oliver mentioned somewhere they were some hard redirect) but the problem, Google results is solved when searching for Tiki Wiki Donation and Tiki Donation.
