Description

Links to file attachments via

work well on wiki pages. You'll get the desired link, as expected.

When you now switch to print preview mode you'll get

no such attachment on this page

The PDF generation has a similar bug, BTW.

As per Tiki23 I tried to reproduce and check how wiki attachment section is printed. Everything seems to be as expected. Your attachment pictures are not found and so I may be missing something. Please retest if you still have an issue re-open and give more accurate details.
