Description

Install:

tikiwiki 1.9.3.2

PHP 5.1.4 (Build 2600)

Apache 2.2.2

Here is the text you can try:

))Cohen-Steiner(($\tilde{\Delta}, -\tilde{\Delta}$ “Restricted delauney triangulations and normal cycles $\tilde{\Delta}, -\tilde{\Delta}$. are estimates of the principle curvature directions at the vertex. Once we have computed principle curvatures for every isosurface vertex, we can use the jack triangle floodfiller to flood-follow lines of curvature. The complexity here is how to sample the curvature fields to produce curves.
